

# Health & Safety Policy

Dane Architectural Systems specialises in the design, manufacture and installation of commercial construction projects comprising of glazed facades, curtain walling, windows, structural glazing, entrances, brise soleil, automatic doors and shutters, architectural metal works, light structural steelworks, balustrades, staircases, canopies and bespoke feature fabrications.

Whilst our management, design, procurement and manufacturing facilities are based in the North East of England our installation works are carried out across major construction sites across the United Kingdom.

We are committed to securing the Health and Safety of our employees at work and all of those that may be affected by our operations. We believe that a positive health & safety culture and the active management of risks contribute to both the success of our projects and the maintenance of our excellent reputation within the markets in which we operate.

Our aim is to provide and maintain safe and healthy working conditions, safe equipment and safe systems of working for all our employees, and to provide such information, training and supervision as is needed.

In this Health & Safety policy statement we commit our company to achieving the following objectives;

- Ensure this policy is aligned to the strategic direction of the business and its stakeholders with Health & Safety objectives being set and regularly reviewed by senior management.
- Complying with all applicable legislation, regulations and statutory controls including Customer requirements where applicable.
- Operating in a manner that safeguards, as far as reasonably practicable, the health, safety and welfare of all those working within our business and/or affected by our works
- Implementation of our Health & Safety Management System across all business activities and sites
- To develop and maintain a positive culture that promotes the continuous improvement of Health & Safety
- To allocate suitable and sufficient resources to promote the effective management of Health & Safety and provide suitable training as required
- Health and Safety must never be compromised for other business objectives

The ultimate responsibility for health and safety matters is with the Chief Executive of Dane Architectural Systems. We aim to achieve the above objectives through leadership and commitment of our staff and the creation of an excellent Health and Safety culture across the business and on the projects, we undertake.

The H&S duties of our employees, and the responsibilities of the management team are fully defined within our Health & Safety Management System

This policy statement will be reviewed and updated as necessary via our 6 monthly management reviews. The management team endorses these policy statements and is fully committed to their implementation.
