

# Environmental & Sustainability Policy

Dane Architectural Systems specialises in the design, manufacture and installation of commercial construction projects comprising of glazed facades, curtain walling, windows, structural glazing, entrances, brise soleil, doors, architectural metal works, balustrades, staircases and canopies.

Whilst our management, design, procurement and manufacturing facilities are based in the North East of England our installation works are carried out across major construction sites across the United Kingdom.

This Environmental & Sustainability Policy outlines our commitment to practices and standards designed to promote environmentally responsible operations throughout all business activities with the aim of contributing to a sustainable legacy for the future. These values form a key part of the strategic direction, values and principles of Dane Architectural Systems.

In this Environmental & Sustainability Policy statement, we commit our company to:

- Ensure this policy is aligned to the strategic direction of the business and its stakeholders with environmental & sustainability objectives set and regularly reviewed by senior management as part of our ISO 14001 EMS obligations,
- Adhere to all relevant environmental legislation, regulations, and other environmental and sustainability requirements to which we subscribe including supporting Customer requirements,
- Protect the environment by preventing or minimising our contribution to the pollution of land, air, and water,
- Streamline all business processes to create less waste and use less energy,
- Encourage procurement processes across our supply chain to try to ensure all materials and products procured are from recycled and/or sustainable sources with low environmental impact,
- Manage and dispose of all waste in a responsible manner utilising the waste hierarchy,
- Train our staff to work in accordance with this policy and developing an environmental and sustainability aware culture,
- Develop our management processes to ensure that environmental and sustainability factors are thoroughly considered during tender, design, manufacture, and installation processes,
- Regularly communicate our environmental and sustainability performance to our employees, stakeholders, customers and supply chain and
- Measure, monitor and report our carbon footprint to SECR standards and implement a carbon reduction plan to achieve and maintain ISO 14064-1 accreditation.

This Environmental & Sustainability Policy will be publicly displayed within our offices, works, site offices and the Dane website.

This policy statement will be reviewed and updated as necessary via our six-monthly management reviews. The management team endorses these policy statements and is fully committed to their implementation.
