

# Environmental Policy

Dane Architectural Systems specialises in the design, manufacture and installation of commercial construction projects comprising of glazed facades, curtain walling, windows, structural glazing, entrances, brise soleil, doors, architectural metal works, balustrades, staircases and canopies.

Whilst our management, design, procurement and manufacturing facilities are based in the North East of England our installation works are carried out on major construction sites across the United Kingdom

This Environmental Policy outlines our commitment to practices and standards designed to promote environmentally responsible operations throughout all business activities with the aim of contributing to an environmental legacy for the future. These values form a key part of the strategic direction, values and principles of Dane Architectural Systems

In this environmental policy statement, we commit our company to:

- Ensure this policy is aligned to the strategic direction of the business and its stakeholders with environmental objectives set and regularly reviewed by senior management as part of our ISO 14001 EMS obligations
- Adhere to all relevant environmental legislation, regulations, and other environmental requirements to which we subscribe including supporting Customer requirements
- Protecting the environment by striving to prevent and minimise our contribution to pollution of land, air, and water.
- Streamline all business processes and activities to create less waste and use less energy
- Encourage procurement processes across our supply chain to try to ensure all materials and products procured are from recycled and/or sustainable sources with low environmental impact
- Managing and disposing of all waste in a responsible manner utilising the waste hierarchy
- Train all staff to work in accordance with this policy to developing an environmentally aware culture
- Regularly communicate our environmental performance to our employees, stakeholders, customers, and supply chain
- Developing our management processes to ensure that environmental factors are considered during design, manufacture, and installation
- Monitoring and continuously improving our environmental performance.

This Environmental Policy will be publicly displayed within our offices, works, site offices and the Dane website.

The policy statement will be reviewed and updated as necessary via our 6 monthly management reviews. The management team endorses these policy statements and is fully committed to their implementation.
