

Sustainability Policy

Dane Architectural Systems specialises in the design, manufacture and installation of commercial construction projects comprising of glazed facades, curtain walling, windows, structural glazing, entrances, brise soleil, doors, architectural metal works, balustrades, staircases and canopies.

Whilst our management, design, procurement and manufacturing facilities are based in the North East of England our installation works are carried out on major construction sites across the United Kingdom.

This Sustainability Policy outlines our commitment to practices and standards designed to promote sustainable operations throughout all business activities with the aim of contributing to a sustainable legacy for the future. These values form a key part of the strategic direction, values and principles of Dane Architectural Systems.

In this Sustainability Policy statement, we commit our company to:

- Ensure this policy is aligned to the strategic direction of the business and its stakeholders with sustainability objectives set and regularly reviewed by senior management as part of our ISO 14064-1 and Carbon Reduction accreditation obligations,
- Strive towards achieving government, public and customer initiatives to provide a sustainable business whilst complying with all relevant legislation and regulations
- Streamline all business processes and activities to create less waste and use less energy
- Procure energy supplies and fuel from the most sustainable and renewable sources, and develop in-house means of using such resources in the most efficient manner
- Drive sustainability requirements down through our supply chain to try to ensure all materials and products procured and delivered are from sustainable sources with minimal carbon footprint and environmental impact
- Train all staff to work in accordance with this policy to developing a sustainably aware culture
- Develop our management processes to ensure that sustainability factors are thoroughly considered during tender, design, manufacture, and installation processes,
- Regularly communicate our sustainability performance to our employees, stakeholders, customers, and supply chain
- Measure, monitor and report our carbon footprint to SECR standards and implement a carbon reduction plan to achieve and maintain ISO 14064-1 accreditation.

This Sustainability Policy will be publicly displayed within our offices, works, site offices and the Dane website.

This policy statement will be reviewed and updated as necessary via our six-monthly management reviews. The management team endorses these policy statements and is fully committed to their implementation.

Signed:

**Martin George
Managing Director**
